

Coach View-

1. Dashboard –

- **Daily schedule-** It should be certain month and year instead of going left or right.
- **Time** – It should be up to 9 pm instead of 6 pm.
- The contents for medical , syllabus tracker , slow learner, repairs , purchase, ISF shop , suggestions, activities and events has to change according to the ui.

2) Users –

- **Add new user** -When we capture photo of a child and click on save

button, the photo is not visible. It should be visible after capturing.

- **Medical history**- Here should be the same medical information points that are in new health checks in point.(Medical In charge section)
- **Assigned Machine** – How to connect machine with playground? How to assign it?

3) Task –

- **Create new task** - we want date of task created.
- **Assign to section** - This section is empty. I am unable to assign any task to someone.

4)**Purchase** - We will see this tomorrow -need some time to analyze.

4) WTF-

Nothing is clickable.
