New Purchase Request (Multi-Product)

Balagruha *

Select Balagruha

Select Products *

☐ Show all products (not just low stock)

Please select a balagruha first

Attachments (Optional)

Please select an item in the list.

1. We need 2 things in New Purchase Request -

- A. New Equipment
- B. Consumables (Including medicines)
- C. Others

2. In New Purchase order form :

Besides Balgruha, We want a cateogory called "STOCK"

Because we may buy things without knowing for which balgruha. For Eg : Pee proof Pants

On clicking Purchases Tab, The New Purchases request, A date column should appear. We want a date in New Purchase Request

Purchase Manager < Shop Inventory < Shop Inventory

The screenshot shows a web application interface for 'Purchase Management'. At the top, there's a navigation bar with a user greeting 'Hi purchaser' and several tabs: 'Dashboard', 'Tasks', 'Repairs', 'Purchases' (which is circled in black), and 'Shop'. A 'Logout' button is in the top right corner. Below the navigation bar, the 'Purchase Management' section is active. On the right, there's a 'Purchase Type:' dropdown menu with three options: 'Shop Inventory' (selected), 'Machine Repairs', and 'Shop Inventory' (highlighted with a red circle). Below this, there are two buttons: '+ New Purchase Request' and 'Export PDF'. The main content area is titled 'Shop Inventory Purchase Requests'. It features a search and filter section with 'Date Range' (set to 'All Time'), 'Balagruha' (set to 'All Balagruhas'), 'Status' (set to 'All Status'), and a 'Search:' input field with the placeholder text 'Product, SKU, Reason...'. At the bottom, there's a table header with columns: 'REQUEST ID', 'PRODUCTS', 'TOTAL ITEMS / QUANTITY', 'TOTAL COST', 'REASON', 'STATUS', 'REQUESTED', and 'ACTIONS'.

In the Purchase Manager Login, We can see that new purchase request can be made. But Purchase manager fulfills the request, he doesn't buy anything on his own. So ideally this purchase request form should be in coach login, medical and admin login.

QUESTION -

If the purchase request by everybody can be made in purchase manager login, then the purchase request should be identified by playground and be able to purchase only for his balgruhas ??

The Purchase Management Login was only meant to be for the guy who purchases everything
