

Student View

Feedback

1. Whether we click Dashboard or my courses, the screen is the same for both. i.e. MY COURSES
2. Mood Check in was supposed to appear on left. 5 emojis, voice chat button, ISF Shop and homework. Please refer to earlier UIs
3. The Student login dashboard should have WTF already opened in the active area.
4. Please see the difference between the today's UI & what is needed
