What is the use of active ,
inactive and completed here ?
It does not make any difference if
I select any one of the options.

The screenshot shows a web application interface. On the left, there is a sidebar with a 'New Health Check-in' button. The main area displays a table of health check-ins. Overlaid on this is a 'New Health Check-in' form. The form has a title bar with a close button (X). Below the title bar is a text input field. Underneath is a button labeled 'Upload Images (Max 5MB each)'. Below that is another button labeled 'Upload PDFs (Max 10MB each)'. At the bottom of the form are two buttons: 'Cancel' and 'Submit'. An orange arrow points from the 'Submit' button to a text box on the right.

Case close option should appear in end of the Health check –In .

Only Medical incharge can close any case .

After clicking on close case option it should automatically added into “Total students treated so far tab “
